Experience • Responsiveness • Partners

The Orion Non-Profit Program (ONPP) is a full-service credit card processing program offering multiple payment solutions and discounted pricing for:

- 501(c) 3 organizations
- non-profits
- socially responsible companies
- educational institutions

Orion is different from other merchant services companies you may have encountered. While our focus is always on providing the highest level of products and services to our customers, we are also committed to supporting non-profit organizations that provide vital services to America's most susceptible communities. Our mission is to help non-profits by:

- lowering credit card discount and transaction costs and reduce their operational costs
- reducing donation acceptance costs (it costs money to accept donations online)
- giving back a generous percentage of their credit card processing costs as a direct donation to the non-profit
- returning a generous percentage

of the credit card processing costs from referrals that join Orion

- increasing community awareness
- creating new revenue opportunities

Our goal is to recognize organizations that make a positive difference for communities, our environment, and our planet and to provide them with a much needed source of funding.

Referrals Impact Your Bottom Line

Our exceptional referral program:

- supplements a non-profit's fund-raising efforts
- increases community awareness
- expands revenue opportunities

All non-profit organizations and referral businesses - large or small - can take advantage of this positive, and unique, way of giving back!
